Newsletter.....June 2013

These two beautiful pups are Tia and Sadie, who recently spent their first holiday with us. Pups take kennelling in their stride at this age so it is a great time to start. If they are timid, a short stay might be best to begin with, but if they are friendly, cheeky pups they will find it one big adventure. Puppies and kittens can be boarded as soon as they are old enough to have completed their vaccinations.

***Tick season is here!
Please ask at your
own vets about
tick prevention***

Now that the weather has finally warmed up a bit, kennel repairs and repainting are making good progress. When we have a mild winter and spring, we can paint much earlier in the year when the kennels are quieter. When spring is very cold and the painting is being done in the summer, we can only paint occasional kennels as they become free. This week we finally removed the polythene which protects the cattery from cold winds in the winter, then later in the same week we had to turn off all the cat heat pads because of an exceptionally hot day! It only lasted 24 hours though, so the heat pads are all back on again. It would be nice if the weather could make up its mind!

Many thanks to all our kind clients who are sponsoring Kirsty and Erica in the Race For Life at the end of June, in aid of Cancer Research UK. Your sponsorship is greatly appreciated.
